**ACCESS FOR ALL SMILES**

Delta Dental Foundation of Michigan, Ohio, Indiana, and North Carolina has created Access for All Smiles, a dental health curriculum for caregivers of adults with disabilities.

In this curriculum, professional and family caregivers will:

- The importance of dental health for the adults they support.
- Best practices for daily mouth care.
- Behavior support techniques for mouth care.
- How to communicate with the adults they support.

This self-guided curriculum is on topics, such as Daily Care...

Customized Resources To Fit Your Needs

# McMillenHealth

EDUCATION • CURRICULUM • MEDIA

McMillen Health is a nonprofit organization that offers over 200 preventive health education programs taught by professional health educators, designed for students of all ages, abilities, and backgrounds. Since we opened our doors in 1981, we have grown tremendously in size and services.

McMillen Health now offers custom educational resources including videography; graphic design; and curriculum development locally, nationally, and internationally.

Each organization has a unique need for our services. Check out our generalized pricing sheet below. Prices and terms may vary depending on the needs of your project.
